- 📖 Operating System
- 📖 Network and Information Security

### Free Code Camp

#### Full-Stack Web Development

- 📖 Responsive Web Design
- 📖 Front End Libraries
- 📖 Data Visualization
- 📖 Algorithms and Data Structures
- 📖 APIs and Micro-services
- 📖 Information Security & Quality Assurance

## Experience

## Personal Skill

- Leadership
- Creativity
- Decisiveness
- Adaptability
- Interpersonal
- Collaboration
- Responsibility
- Self Motivation
- Problem Solving

## CMS

cPanel

## About Me

I started coding and designing in September 2017 and I am self-taught developer and creative designer. I have serious passion for modern looking websites with a little bit of animations, logos, flyer and brochure designing. I love what I am doing and I am highly motivated to collaborate with someone. If you are up into some projects, just let me know!
